

BIRD-X

Bird Free Optical Deterrent

The gel creates an illusion of fire as birds have the ability to see ultraviolet light

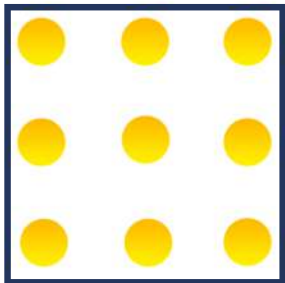

Bird Free Optical Deterrent deters most pest birds from structures when applied. Easy to install and not needing to be reinstalled for 2 years

Uses: ledges, signs, balconies, soffits, beams, skylights, signs, roofs, HVAC equipment, enclosed spaces, etc.

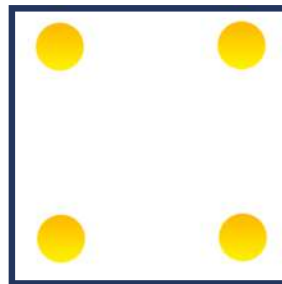

Target Bird: Harmful birds (pigeons, magpies, etc.) that damage buildings, crops, structures, etc

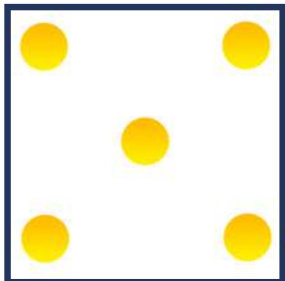

Safe for the environment: made of all-green ingredients

Nesting Sites
6 in. maximum spacing

Day Roosting Sites
10 in. maximum spacing

Night Roosting Site
8 in. maximum spacing

The UV view that causes birds to see the Gel as fire

Low pressure (day roosts): 10 inch
Medium pressure (night roosts): 8 inch
High pressure (nesting sites): 6 inch
