

Gator Guard

Scare geese and other waterbirds with a realistic, floating moving predator alligator head.

- 25 threatening inches long,
- Moves and bobs with the wind and water
- Life-like eyes flash in the light

Mirrored-back eyes flash in the sun as the Gator bounces all around the pond. Geese think they're being followed and can't acclimate to a fixed pattern. Effective worldwide - even where alligators don't live - as this fear is instinctive, not learned.

Coverage: up to one acre

Pests: geese, ducks, fish-eating birds, small animals

Uses: golf courses, ponds, pools, koi ponds, lakes, fish or shrimp farms, park districts, condominium complexes, and more

SPECIFICATIONS:

Dimensions: 25" long x 11" wide x 7" tall

Weight: 2 lbs

Material: Durable, weatherproofed EVA resin over sturdy polypropylene frame

Model # GG

VISUAL SCARE DEVICES

GATOR GUARD AND BIRD STROBE LIGHT can be used alone *or in combination with electronic sound/ultrasound devices or chemical repellents.* **SYNERGY** (combining types of scares) is always the most effective approach to pest bird control.

Bird Strobe Light

Multi-color stroboscopic bird deterrent

Repel Birds with Pulsing Strobe Explosions

- Gives off intimidating, intense white, red and blue light
- 1 million candlepower
- 75 flashes per minute

The flashes and frightening shadows are intolerable and disorienting to birds. Most effective in dark or dimly-lit buildings.

Model # BSL
